

Presentation

This module adds the option to request the CPF and/or CNPJ to all of the costumers of your Prestashop online store at the act of sign up. It also allows advanced and instant searches of full addresses with only the CEP.

What the module offers

The storeowner has a full control over the information asked to the client. He can set the CPF and CNPJ as mandatory fields to the sign up process.

The module will verify if the declared CPF and/or the CNPJ are true or not; and clients cannot sing up with inexistent or conflicting CPF or CNPJ. This information must be reliable since are mandatory to issue "Notas Fiscais" (Brazilian invoice).

The CEP can be used to obtain a full address. If the client does not know his own CEP, the storeowner has the possibility to display an "I don't know my CEP" button, which will redirect the client in doubt to the corresponding service at the "Correios" website.

Characteristics

- Full support for Prestashop 1.6 and Prestashop Cloud
- Multilanguage compatible
- Possibility of activate the CPF and/or CNPJ fields
- The CPF and/or CNPJ information might be set as mandatory or not.
